

With Magnetic Paint you can create a wall that magnets will stick to in no time at all!

You can stick your shopping list, photos and posters onto the wall with magnets. A wall that has been painted with Magnetic Paint looks just like any other wall, but it has an invisible advantage - magnets will stick to it!

You can paint over Magnetic Paint with water-based paint in any colour. It will even work under thin wall-paper. The underlying surface must be smooth.

Magnetic Paint wall paint is a ready-mixed, lead-free water-based acrylic latex that complies with all environmental requirements.

Ideal for:
classrooms • playrooms • nurseries • kitchens • offices
canteens • receptions • price lists • schedules • exhibitions
meeting rooms • shops

Magnetic Paint is available from:

For more information see www.themagneticcompany.com

Choose a smooth surface that you want to use magnets on. Stir the paint well and apply two or more layers. The more layers you apply, the better the magnets will stick.

Leave each layer to dry for at least 4 hours. After 24 hours you can paint the wall with whatever colour you like.

That's it! Once the paint has dried all kinds of magnets will stick to the wall.

No more drawing pins or sticky tape on the wall. Posters, photos, drawings and documents can be stuck to the wall with magnets.
